DETAILS AFTER DÜRER DRAWING PROMPTS

For centuries, people have created art inspired by—and sometimes directly copied from—the work of German Renaissance artist Albrecht Dürer (1471-1528).

Enjoy some artistic experimentation by drawing from this detail taken from a print in the exhibition *Dürer & After*. Copy the image to practice your sketching skills or reinterpret it in your own unique style. You can also cut out the detail and give it new life in a collage!

Visit clarkart.edu or the Admissions desk in the Manton Research Center for new weekly prompts through August 31.
